

HUON LOGISTICS LIMITED

COMPANY PROFILE

Huon Logistics' specialised transport capability is focused on the development of transport and freight logistics services in PNG. It offers a combination of local knowledge and service backed up by the company owned and operated workshop assets to be a truly integrated logistics service.

Huon Logistics aims to operate on a self sufficient basis in offering its services to establish its depot operating 24/7 . Huon Logistics has installed a GPS vehicle tracking system that sends a signal every 2 minutes from each vehicle to our control centre in Lae, which supports the drivers and provides security to our customers freight. This provides security and becomes the backbone to our operations team giving vital information for delivery times.

The company's objective is to maintain its leadership in the transport industry as a top-tier transport-logistics company. This should be achieved by quality and timely service rendered to the customer's satisfaction.

Huon Logistics has a strong working connection with customs brokerage firms for an end-to-end freight and ships agency services to customers moving goods , equipment and people in and out of Papua New Guinea.
